

# LAB 5

IBARRA SABIDO JOSE MARIA | **Fundamentos de Telecomunicaciones**

Wireshark packet capture analysis showing network traffic details. The packet list shows a sequence of packets, including a standard query response (80) and a standard query response (80) from 192.168.1.100 to 192.168.1.1. The packet details pane shows the structure of the captured packet, including Ethernet II, Internet Protocol Version 4, and User Datagram Protocol. The packet bytes pane displays the raw data in hexadecimal and ASCII.
